

Teams Direct Routing as a Service

Teams Direct Routing, Partner Hosted Architecture, Voice Solutions
Full UCaaS solution, replace on-prem PBX or inferior Hosted Voice/UC services

ABOUT US

NWN Carousel, one of the premier Nationally Managed Microsoft Partners and multiple Microsoft Partner award winners, has achieved Gold Partner Competencies with extensive experience in both on-premise and cloud-based Microsoft implementations, upgrades, and migrations. NWN Carousel holds Advanced Specializations in Teams Calling, Teams Meetings and Meeting Rooms, and Change Management and Adoption. We offer vast consulting experience, with over 3 Million seats migrated to the cloud. Based on our extensive design, implementation, migration experience, certifications, proven and repeatable project methodology, and project management approach, NWN Carousel is uniquely qualified to deliver highly successful Microsoft solutions. Our deep understanding of voice and collaboration solutions allows you to work with a single partner who understands Microsoft, Avaya, Cisco, Poly, and many more to ensure your migration is successful. We have one opportunity to make a positive impression on end-users as we migrate to new technologies, and NWN Carousel takes great pride in supporting our customers on their Digital Transformation journey.

Reliability

Combining Microsoft Teams and Teams DRaaS carrier-grade voice network built on the Operator Connect framework, guarantees excellent communication for your organization with no limitations.

Customized for Each Team

Tailor your workspace to include the content and capabilities your team needs every day. Tabs and Connectors provide quick access to frequently used documents, websites and 3rd party apps

Microsoft Teams is the fastest growing Microsoft Business application of all time and poised to become the center of the Office 365 Universe.

TEAMS OVERVIEW

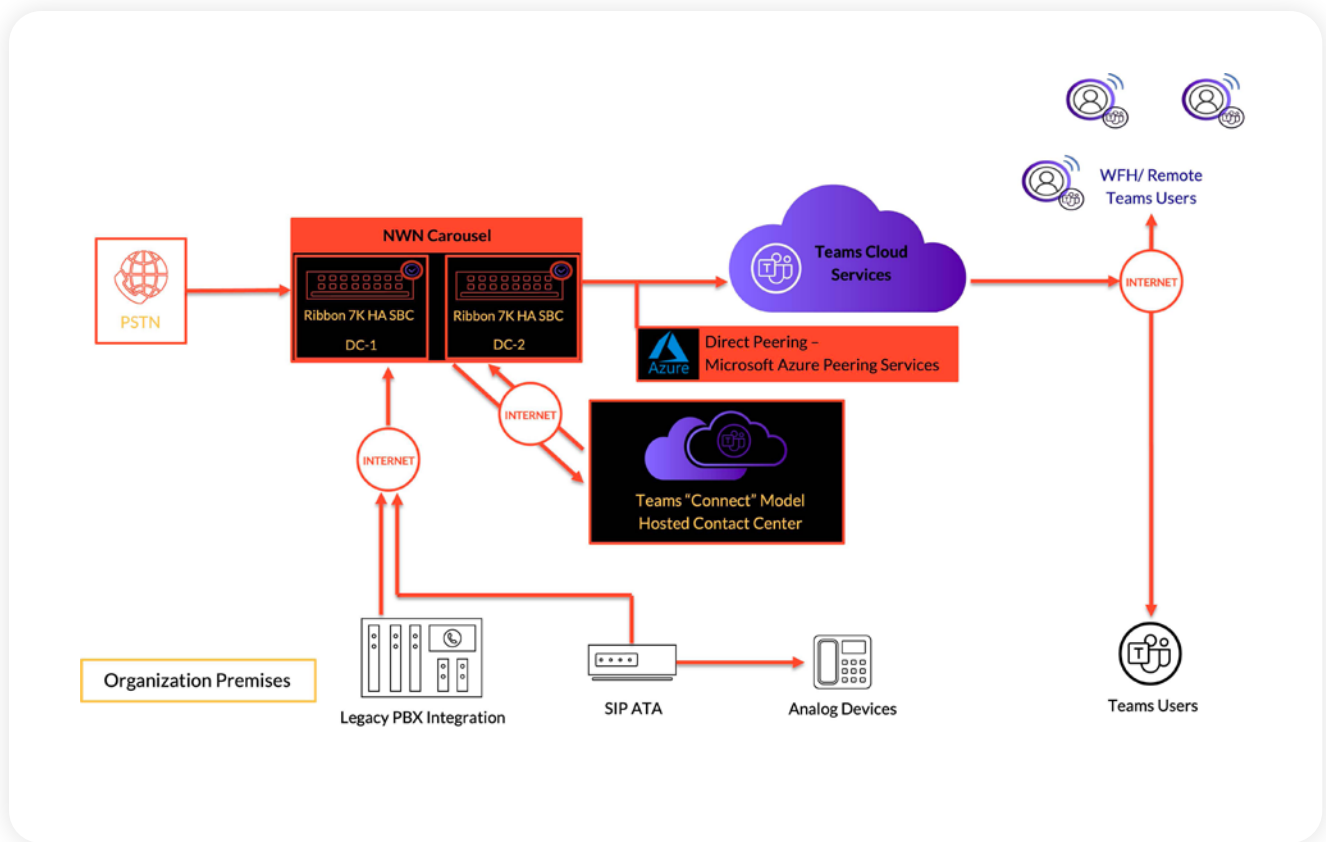

Communicate in the moment and keep everyone in the know. Chat in teams, privately one-on-one or in groups. Audio and video calls are just a click away and notifications and chat history ensure everyone is kept up to date. Access Microsoft Teams on any device with confidence knowing it's been built with enterprise-level security from Office 365.

A Hub for Teamwork

Combining Microsoft Teams and Teams DRaaS carrier-grade voice network (8+ years without a customer facing outage) guarantees excellent communication for your organization with no limitations.

Cost Savings

Eliminate the need for on-premise PBX hardware and avoid costly capital expenditures. With a quick deployment time you can benefit from the latest technology with predictable, fixed monthly costs.

OUR SERVICE

Combining Teams DRaaS world class, carrier-grade network with Microsoft Teams guarantees excellent communication inside and outside your organization. Microsoft Teams is the hub for teamwork in Microsoft 365. It cuts across organization boundaries by allowing private chats or group conversations, and great team organization.

Combining Teams with Teams DRaaS allows for secure communication anywhere, anytime, on any device by eliminating the need for on-premise PBX hardware to avoid costly capital expenditures. The quick deployment time for Teams DRaaS infrastructure means faster time to market and enables you to benefit from the latest technology with predictable, fixed monthly OpEx costs.

Unified Communications Solution

Microsoft Teams delivers a one stop platform backed by the expertise and resources of a global partner, empowering you to develop a centralized strategy for secure, seamless Unified Communications.

Secure, Reliable Customized Solution

Combined with Teams DRaaS enterprise voice PSTN calling and Microsoft Teams IM, presence, audio/video conferencing, web collaboration, and screen sharing, Unified Communications has now Evolved.

Fully Integrated in Office 365 Ecosystem

Microsoft Teams fully integrates with Microsoft Outlook email and calendars, SharePoint, the Microsoft Office suite, CRM software and a variety of other services for maximum convenience and efficiency.
