

Education Safety, Productivity & Compliance

Deliver Safer and Engaging Student and Administration Experiences with
NWN Carousel's Integrated Cloud Communications and Public Safety Services

Enabling districts and administrators to transform the student experience while meeting new public safety requirements including Alyssa's Law, Kari's Law, & RAY BAUM's ACT.

IT leaders across the nation are responsible for new public safety requirements within the educational landscape. They need to deliver both effective learning tools and robust infrastructure, as well as implement new compliant technologies that are required to help protect our schools.

Meeting IT requirements while also addressing laws mandated for life-saving technology introduces a new challenge.

These ongoing legal requirements are driving IT staff to work with public safety departments, facilities management teams and law-enforcement to develop an overall IT roadmap and emergency action plan – quickly and on budget.

NWN Carousel's new Public Safety Education Bundle, together with 911inform, integrates leading safety and emergency management solutions to deliver a seamless and compliant technology and support package to meet the latest in safety regulatory requirements.

Kari's Law

System must allow direct access to 911 without an access code.

System must provide on-site notification that a 911 call has been made and from which station.

RAY BAUM's Act

System must allow direct access to 911 without an access code.

System must provide on-site notification that a 911 call has been made and from which station.

Alyssa's Law

All public elementary and secondary schools required to install silent panic alarms approved by The Dept of Education. In effect in FL, NY & NJ; pending in AZ, NE, TX & VA. National Bill Introduced in the House of Representatives.

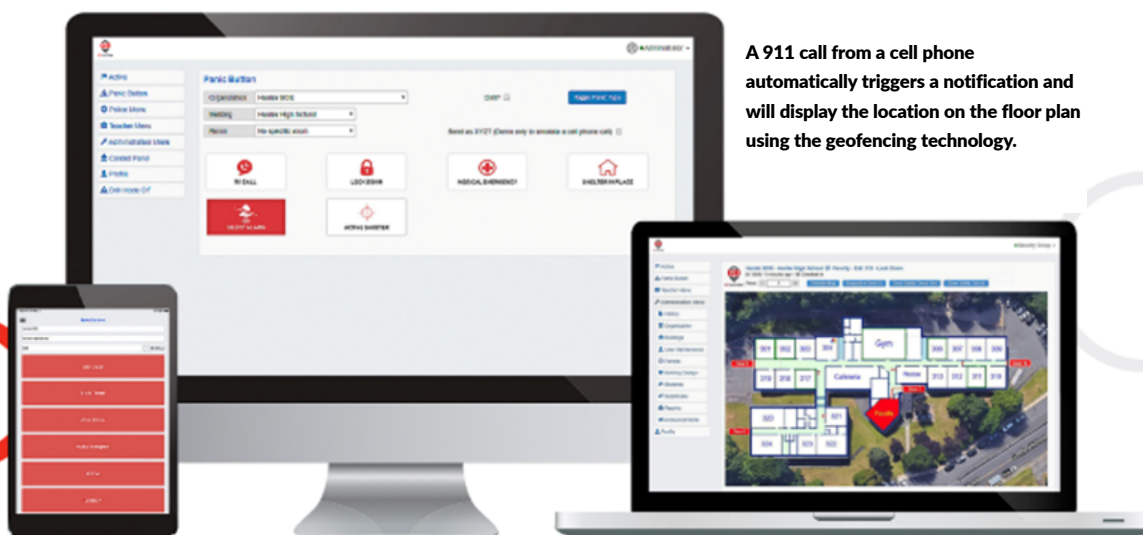

Public Safety Education Bundle delivers critical **Unified Communications** capabilities, along with implementation, ongoing support, and world-class **managed IT services**. NWN Carousel uniquely provides a reliable technology roadmap with advanced integrations with video surveillance, access control, alerting & mass notification systems and **wireless infrastructure** (RFID and location services) to meet future school safety requirements.

Trusted Advisors in Public Safety Solutions

Our 5,000+ customers across North America view NWN Carousel as their trusted advisor and rely on our industry knowledge to architect, install, and support their mission-critical environments. Our decades-long legacy in public safety telecommunications and deep technical expertise in delivering secure, innovative and scalable cloud solutions helps our K-12 and higher education customers manage their business risks in a predictable cost model.

With our proficiency in notification and emergency management solutions, we understand that creating an operational safety plan does not include just one product. We provide an integrated solution(s) that supports an emergency from start to finish.

Our Public Safety Education Bundle is much more than “silent alarms,” it’s an integrated platform approach to safety and productivity. Together with our trusted partners, NWN Carousel has helped hundreds of K-12 and higher education customers deploy video surveillance, access controls, paging systems, and panic buttons – along with the wireless infrastructure and secure devices – to deliver an integrated, desired outcome.

A 911 call from a cell phone automatically triggers a notification and will display the location on the floor plan using the geofencing technology.

Key Features

- Situational awareness inside the school
- Direct room intercom, monitor, and paging into the school
- Interactive Mapping
- Faculty and student location displayed on floor plan
- Missing student indicators and tracking
- Clear building and report possible object on the map
- Panic Buttons – Deskphones, physical and virtual/mobile options available
- Real-time two-way communication between police & school personnel
- Tactical mode to easily view the perimeter of the building
- Door and camera control from dispatch or patrol car
- Single pane of glass for security & compliance operations

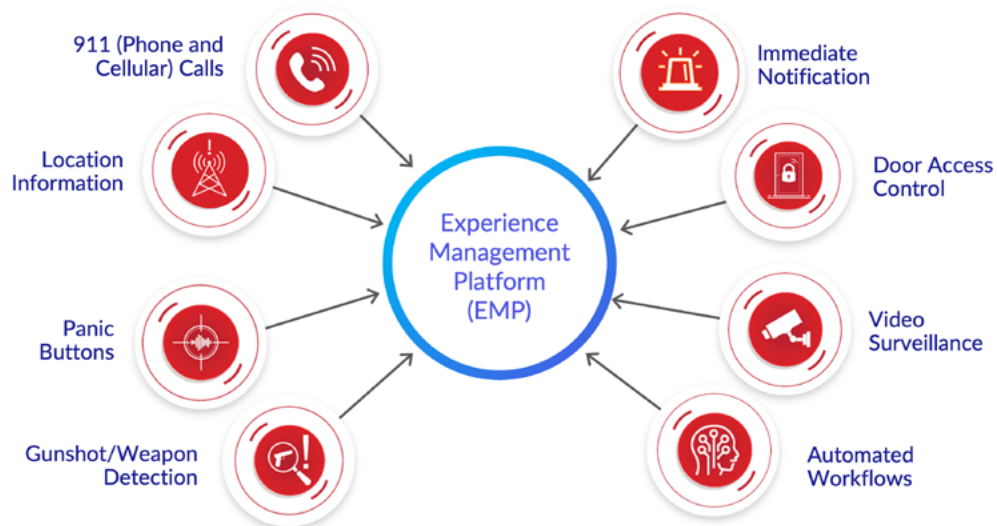

Customize your Public Safety Education Options

<p>Option 1</p>	<ul style="list-style-type: none"> • Unlimited Mobile Panic Buttons • Cellular 911 Call Notifications and Geofencing • Internal notifications via SMS or Email • Interactive Mapping 	<p>One-Time + Recurring Fee</p>
<p>Option 2</p>	<ul style="list-style-type: none"> • Unlimited Mobile Panic Buttons • Cellular 911 Call Notifications and Geofencing • Internal notifications via SMS or Email • Interactive Mapping • 911inform hardware and software to connect to up to 4 doors • 911inform hardware to connect to up to 20 cameras 	<p>One-Time + Recurring Fee</p>
<p>Option 3</p>	<ul style="list-style-type: none"> • Unlimited Mobile Panic Buttons • Cellular 911 Call Notifications and Geofencing • Internal notifications via SMS or Email • Interactive Mapping • 911inform hardware and software to connect to up to 8 doors • 911inform hardware to connect to up to 50 cameras 	<p>One-Time + Recurring Fee</p>

NWN Carousel Differentiators

Consumable Actionable Data

Grants & Funding Available for Technology Upgrades

As Alyssa's Law passes in several states, schools can leverage the federal funding vehicle to address emergency communications and a host of other vulnerabilities. Our teams of experts can guide you through available financing for your technology upgrades.

Minutes Matter – Seconds Count

911inform Case Study

In the fall of 2019, a shooting took place in a metropolitan northern NJ city that was in the vicinity of two K-12 schools that prompted police to immediately initiate a lockdown in two school districts.

One school district had a manual “phone tree” alerting system while the other utilized a new “connected building” focused solution that was remotely managed by a police dispatcher.

A dramatic increase in efficiency was clearly visible with the “connected building” district. The 18.5-minute delay in the total lockdown of the “phone tree” school district is proof of how a more efficient, integrated solution can save lives.

Future-Proof your Public Safety

Technology Roadmap

Unified Communications

Ensures enterprise-grade collaboration and communication between students and teachers with integrated tools and applications

Devices

Improves student and teacher uptime and ensures competitive readiness with device deployment, support and security

Advanced Technology Solutions

Powers learn-from-everywhere, always-on connectivity

Experience Management Platform

EMP is a management platform that provides visibility, analytics and administrative functions

“We worked closely with NWN Carousel to meet new E911 compliance requirements to ensure prompt communications with authorities during an emergency. They helped us with our mission-critical IT needs by providing the necessary implementation and support to prepare us to meet current and future public safety technology mandates.”

Maciel Pais

Information Technology Director, Greater New Bedford Regional Vocational Technical High School
